As the GlobAid Family, we're thrilled to launch a donation campaign with a total target of £20,000 to provide scholarships to students in Turkey, with a priority given to those affected by the recent earthquake, in honor of the 100th anniversary of the Republic of Turkey.

We're excited to announce that we've already reached our initial target of £2,000, enabling us to grant scholarships to 30 students. However, many more young people and children still need support. Our ultimate goal is to provide scholarships to 200 students by the end of this year and continue supporting them throughout their educational journey.

We invite Turkish business people, professionals, philanthropists, and volunteers living in the UK to contribute to our campaign. With your support, we can provide scholarship opportunities to 200 students who have not yet received financial aid for their education.

**Our target is to reach £20,000 and provide scholarships to 200 more students.**
